UVAISH KHAN

A mechanical engineer turned into Front End Developer

PROJECTS:

1. E-Commerce Platform

We've built an e-commerce website platform which is having products page displaying fake products using fakeproducts API.

Tools & Technologies: ReactJS, NodeJS, Bootstrap, CSS.

Live-Link: <https://shopaholic-psi.vercel.app/>

GitHub: <https://github.com/UvaishKhan7/shopaholic>

2. IMDb Clone

We've built the IMDb Clone to show the trending movies data. TMDb API has been used in this project to fetch trending movies data.

Tools & Technologies: ReactJS, NodeJS, Bootstrap, CSS.
